

20 WAYS

Cloud Solutions Can Optimize Your Business's Remote Work

Are you ready to take your business infrastructure to the next level?

Discover the many advantages of using cloud solutions for your business with this 20-point checklist. Regardless of your business size or industry, these 20 items identify key ways cloud solutions from OC Cloud 9 can improve business infrastructure and workflow to operate remotely.

1. Enable your company to onboard or lay off staff quickly.
2. Allow your company to be portable. You don't have to rely on IT staff to support hardware on premises.
3. Enable users to work from any location on any smart device.
4. Centralize all company data for greater security and access.
5. Have a local, US-based tech team support available 24 hours a day, 7 days a week, 365 days a year.
6. Fortify your startup's infrastructure with minimal overhead.
7. Protect your business from natural disasters, theft, or power outages.
8. Allow users to work remotely during catastrophic events (COVID19, fire, earthquake).
9. Simplify office relocations, allowing staff to continue working during the move.
10. Protect your equipment from ransomware and viruses.

20 WAYS

Cloud Solutions Can Optimize Your Business's Remote Work

11. Retain furloughed user profiles and restore them upon rehire.
12. Accommodate increases or decreases in staffing easily with scalable solutions.
13. Save space, utilities, and costs associated with having hardware on-premise.
14. Protect your data with secure storage, encryption, 30-day retention, and instant environment restore.
15. Reduce downtime resulting from local hardware failures (system crashes, hard drive failures, lost files)
16. Test and implement new software products into your cloud environment easily.
17. Give clients the ability to use their local systems until they reach their life cycle.
18. Eliminate nearly all expenses associated with an IT department, tech salaries, or MSP contracts.
19. Forecast IT costs more accurately.
20. Meet Regulatory Compliance needs (HIPAA, ISO 27001, PIC DSS ROCS, AICPA SOC) for data security and storage.

Let OC Cloud 9 design a customized cloud solution for your company!

If 6 or more of the solutions in this list would benefit your company, look no further than OC Cloud 9! Our privatized cloud hosting solutions can be customized to fit your specific needs in a remote environment. We'd love to start a conversation about the ways we can help your business succeed.
